## HARDING WILL FIRE VOLLEYS AT DEMOCRATS

Speech Friday Will Attack Democrats On League.

**RAPS WILSONISM**

Tells Women That Desire Should Be for Prevention Of War.

Marion, O., Sept. 16.—Senator Warren G. Harding will make at least six set speeches on various issues of the campaign from his front porch before September 26, when he is scheduled to leave Marion for a short swing through several mid-western states.

Tomorrow "Constitution Day" the senator will deliver a speech in which he will fire several additional volleys at the Democratic position on the League of Nations and stress the need for America to adhere strictly to the constitution.

Delegates are coming to hear it from Ashland, Champaign, Cuyahoga, Defiance, Knox, Logan, Ottawa, Putnam, Tuscarawas and other Ohio counties.

On Saturday, Senator Harding will address a large number of foreign born citizens from various large cities of the country on the duties of citizenship.

No delegations were due in Marion today and Senator Harding planned to spend a good part of the time on the speeches which are coming.

Urging the adoption of a new proposal for prevention of war, instead of the League of Nations, Senator Harding in a message yesterday to Republican women's organization and women's Harding and Coolidge Clubs asked that we "preserve our own national conscience at home and not check it at Geneva."

The message which was addressed to Mrs. Ray F. Zucker, president of the Women's Harding and Coolidge Club of New York City, and sent to all women's organizations, also asserted that "American women must realize that the League of Nations as presented by a Democratic administration would not mean peace for us, but would mean American boys living in army tents overseas and asked to die in causes in which they would have no heart."

The message was intended to set forth to the woman voters the candidate's views on their entrance into politics, why they should enroll in the Republican party, and a brief outline of the party's position on the League of Nations.

Senator Harding said he expects in the near future to make a comprehensive discussion of the League of Nations from the women's viewpoint in a front porch speech. He intimated this may be one of his most important front porch addresses. It will be made to a delegation of women voters.

In his message, Harding today referred to the League of Nations, declaring that "women are too wise and too fine in moral sense, to listen to technical discussion tending to prove that having made a moral promise by an indefensible international agreement, we could induce Congress to withhold the action needed to perform our moral obligations. We must measure our obligations in determination to live up to them."

The message said in part: "I believe that before we emphasize the need for any new voters to join a particular political party, we must emphasize the need for their joining some party and giving to the party of their choice their service, conscience, wisdom and loyalty."

"Our two-party system has brought progress and prosperity to America, and the party not in power has always proved capable of gaining influence to check recklessness or willfulness of the party having control."

"We must point out especially to women voters that our own party offers to them the best hope of measures of social justice, aimed at preservation of our human resources and of the American home."

**SPECIAL ELECTIONS HELD IN NEW YORK**

New York, Sept. 16.—A special election was held here today in the Bronx and East Side to choose successors to the five Socialist state assemblymen who were ousted from the legislature.

In four of the five districts the Republicans and Democratic parties have nominated a fusion candidate, while all five ousted Socialist assemblymen are seeking re-election. In two of the districts, the fusion nominee against the socialist candidate is a woman.

**MINISTER IS TRANSFERRED**

Chicago, Sept. 16.—Rev. John Lowe Fort of Evanston, Ill., has been appointed pastor of Trinity M. E. church Louisville, Ky., by Bishop W. F. Anderson.

## BRITISH RULE UNDER FIRE OF ORIENTALS

Constantinople, via London, Sept. 16.—A gigantic upheaval against the British throughout the Orient was foreshadowed by speeches at the Asiatic Soviet Congress at Baku, according to information received here today.

The Turkish Nationalist regime which had a large representation at the congress issued an official announcement that more than 1,000 delegates representing the entire Islamic world were present.

The Nationalists emphasized the fact that the speeches forecast "serious intentions of a great movement against British rule in the Orient."

The Moscow government had representatives at the congress. In a recent exclusive interview with the I. N. S. S. M. Tchitcherine the Bolshevik foreign minister said that soviet Russia would reserve a free hand for action against British interest in the Orient until Moscow and the British government entered into a direct agreement.

## MOUNTAINOUS PROBLEMS CONFRONT LOYD GEORGE

London, Sept. 16.—Never in the long crowded history of the British Empire has a prime minister—the helmsman of the British ship of state—been burdened with such mountainous cares and responsibilities as rest today upon the shoulders of David Lloyd George.

Three immediate crises confront the Welsh statesman: First—Widespread turbulence and assassinations throughout the United Kingdom if Terence McSwiney, the hunger striking lord mayor of Cork,

dies in Brixton jail or any of the eleven Sinn Fein hunger strikers die in the Cork jail.

Second—The increasing menace of actual civil war in Ireland, now that the negotiations between the Sinn Fein military and civil authorities and the Irish moderates for a dominion home rule have broken down.

Third—The national coal strike on September 25 which threatens to plunge the industry of the nation into chaos and may possibly spread into actual industrial war.

Indication to the tremendous domestic problems there are international questions of world-wide magnitude demanding the immediate attention of the Premier. Mr. Lloyd George acted as the intermediary between soviet Russia and allies during the negotiations that were in progress while the Russians were advancing throughout Poland and took the lead in the controversy to prevent the allies being drawn into a new war.

These negotiations have been halted but the premier is still working to effect a commercial agreement between Russia and the allies.

The premier is expected to go to Paris within the next week to confer with Millerand on the Russo-Polish situation. The premier desires to be relieved of the sole responsibility for negotiations between Russia and allied Europe and wants entente to enter with Great Britain in a united policy so that the allies can show the soviet a single front.

The British government is hard pressed for money. Taxes have mounted to unprecedented heights and gigantic expenditures are necessary daily to maintain the military establishments in Ireland, Egypt, Mesopotamia and India.

It is the bad financial condition of the treasury and increase the fears of the labor situation. Coal strike and resultant paralysis of industry would add heavily to the financial burdens of the government. Even some of the labor leaders are anxious on this account.

Arthur Henderson laborite member of the parliament wants the premier to intervene personally in an effort to avert the coal strike.

"Unless a peaceful solution is found by means of negotiations the country will find itself in the throes of one of the gravest industrial struggles in its history," said Henderson.

**RESULT OF ILLINOIS ELECTIONS STILL IN DOUBT THURSDAY**

Chicago, Sept. 16.—The result of yesterday's primaries in Illinois is still in doubt early today, so far as the major candidates are concerned. Nominations on the Republican ticket for governor and U. S. Senator will not be definitely known until more complete returns are available and their fight for the Democratic nomination for U. S. Senator is still uncertain. The only sure winner is former Senator James Hamilton Lewis who unquestionably has won the Democratic nomination for governor.

Returns from 2,255 precincts out of 5,733 in Illinois give Len Small 127,235 votes to 126,828 for John C. Oglesby in the fight for the Republican gubernatorial nomination.

It is certain the so-called Tammany faction of the Republican party headed by Mayor William Hale Thompson of Chicago overwhelmingly defeated the "Regular" Republicans headed by Governor Frank O. Lowden in Chicago. The Thompson ticket headed by Small for Governor and Smith for Senator, apparently has carried Chicago by approximately 100,000 votes.

Leaders of the Lowden faction, however, predict that the down state vote will wipe out this advantage for with more than half the precincts still to be heard from refuse to concede defeat.

Four Republican members of Congress of one Democratic congressman apparently have met defeat. The Republicans are Nels Juhl, Carl R. Chindblom, William W. Wilson and Ira C. Copley. The Democrat is Congressman Thomas Gallagher.

## MODIFICATION OF ORDERS ON COAL FAVORED

Interstate Fuel Association Formulates Plans.

**STATE NEEDS GREAT**

Situation Worse In Middle West Than In Northwest.

Columbus, O., Sept. 16.—If the interstate commerce commission modifies its priority orders so as to provide immediate relief to Ohio Indiana and Michigan coal consumers the resulting inconvenience to coal consumers in the northwest will not be more than half as great as will fall to the lot of the consumers in the middle west if the priority orders are not modified.

It is the belief expressed by B. F. Knight, Columbus, secretary of the Ohio-Indiana-Michigan Coal Association who represented retailers at the joint conference held here by officers of three states to formulate a plan designed to avert a serious coal famine next winter.

Without taking definite action, the conference plan to meet again within five days. In the meantime Indiana and Michigan state officials are to decide whether they will join the Ohio State Utilities Commission in a request for relief.

Practically all of Ohio's public utilities have appealed to the utilities commission for coal, according to L. C. Smith, the commission's chief inspector. Smith said at least 25 school districts have no coal.

Charles Marshall, chairman of the Ohio Utilities Commission favored modification of the priority orders. In the event of a refusal, he advocated a suit to determine whether the interstate Commerce Commission has any legal right to interfere with coal shipments from Ohio mines to Ohio points.

**LITTLE COAL IN COLUMBUS**

Columbus, O., Sept. 15.—Because prevailing prices make handling practically impossible there is hardly any coal here.

Only a few dealers are taking orders. Those who are limit their customers to one or two tons each. Because of the high prices, most local retailers declare they will not buy any coal until after lake shipping closes when they say prices will be lower.

Prices asked for coal as available here are: Hocking lump, \$8.50 to \$10.50 a ton; West Virginia lump \$9.50 to \$11; Coshocton lump, \$11 to \$11.75.

## COX PREPARED TO DEFINE JAPANESE POLICY AT COAST

Enroute With Governor Cox, Elko, Nev., Sept. 16.—Fully prepared to take a definite stand on the Japanese question when he enters California tonight, Governor James M. Cox was today speeding across Nevada, convinced that the Mormon church is solidly behind the League of Nations, and that he will carry the state of Utah in the November elections.

The governor's first speech in the sage brush state was delivered here early this morning, immediately after the California reception committee had come aboard to greet him. Other addresses will be made at Winnemucca, Lovelock and Sparks with the main speech of the day at Reno this evening.

The governor regards the meeting at Salt Lake City last night as the greatest stand far in the campaign. Many times during his speech in which he touched upon tactically every issue thus far raised in the campaign interest was intense, but probably the most dramatic moment came when Governor Cox was interrupted while speaking of Senator Harding's position with regard to the League of Nations.

"Where does Senator Harding stand on the League, does anyone in the audience know?" exclaimed the governor.

"America first! That's where Harding stands," someone yelled.

"America first," repeated the governor. "What was the slogan of Germany? 'Deutschland uber alles' was it not? You are singing the song the kaiser sang when the world rose up and struck him down. If that is to be America's slogan, America is to stand isolated from the world, she must arm to the teeth, she must always be prepared for war."

"How about it, my friend?" the governor asked, when the hubbub had subsided.

"He's lost his voice," "He's lost his voice!" the crowd yelled, when the heckler failed to respond. Then Governor Cox added: "My creed is 'The Lord God Almighty first.'"

## NARROWLY ESCAPES

Miss May Landy, a pretty New York girl, who recently arrived from abroad with a thrilling tale of her narrow escape from death while visiting in Dublin, Ireland. Miss Landy was staying at a friend's house in the city during one of the recent Sinn Fein riots. The roof of the house was blown off and the house badly damaged by an exploding bomb thrown by the rioters.

## DATES FOR HARDING

New York, Sept. 16.—Thomas W. Miller, head of the Eastern division of the speakers' bureau of the Republican national committee, announced that Senator Warren G. Harding would speak in Baltimore on the night of Sept. 27; in Wheeling, Sept. 28 and in Ashland, Ky., Sept. 29. Then Senator Harding will return to Marion.

## ARTILLERY PLANTED IN POINTS THROUGH ITALY

Genoa, (Via London)—Sept. 16.—Artillery was planted today by government troops on the heights overlooking this city where the dock workers have claimed the Italian iron and steel workers in demanding the Russian soviet system for the control of industry. The guns were trained upon the shipyards and factories which were seized by the workers.

The workmen retaliated by hoisting Red flags on ships in the harbor which had been taken over and which are being repaired for service. A group of extremists, who proclaim themselves anarchists raised the black flags.

It is understood that the government will shortly convene parliament to introduce co-operative laws giving workers due recognition in the control of manufactures. Officials representing the ministry say that the government is optimistic. They claim that the soviet now controlling iron and steel mills are without funds and raw materials. Premier Giolitti is expected to intervene in the labor situation and attempt to bring back an understanding between the metal workers and the employers.

## SECOND ATTEMPT AT SUICIDE MADE

Martins Ferry, O., Sept. 16.—The second uxoricide attempt and suicide in four months in the same house occurred last evening when Julius Glowoski, 39, a Slavish coal miner, fired five bullets in a brutal attempt to kill his wife who had just returned from Chicago, after a separation.

Failing to hit her, he killed himself. Mrs. Glowoski was visiting a family residing in a house in which Steve Kosolko shot his wife and then committed suicide last May. Mrs. Kosolko recovered. Both Glowoski and Kosolko were the father of six children.

## WILL BUILD NEW HATCHERY

New Philadelphia, Sept. 16.—Contracts will be let in a few days for the building of six pools in the Ohio canal south of Zoar, for hatching of bass, according to an announcement by F. A. Farley, engineer of the state fish and game bureau to members of the county fish and game commission. The cost will approximate \$18,000. Much will be paid out of licenses paid for in Tuscarawas county.

## INFERNAL MACHINE WRECKS INTERIOR OF J. P. MORGAN CO.

Dead and Injured List Reaches Close To Two Hundred; Police Say High Powered Bomb Placed Near Building Caused Explosion.

New York, Sept. 16.—At least 24 persons were killed and hundreds of others were injured and the offices of J. P. Morgan and Co., were wrecked by a gigantic explosion at Wall and Broad Streets in the heart of the financial district at noon today.

The origin was believed this afternoon to have been a wagon load of dynamite on its way through Wall Street to the excavation site of the Stock Exchange building on the southeast corner of Broad and Wall Streets. An automobile is said to have crashed into the vehicle carrying the explosive just as it was between the Morgan offices and the United States sub-treasury where millions of dollars worth of government funds and bullion are stored. United States troops were rushed to the scene to guard the sub-treasury and the Federal Reserve Bank.

New York, Sept. 16.—A former high official of New York's police department who refused to be quoted at 12:30 o'clock this afternoon, after an investigation of the scene of the explosion at the J. P. Morgan offices, declared that it was the result of a conspiracy.

"The explosion was caused by a time bomb in a wagon load of nitroglycerine set to go off at exactly 12 o'clock," he declared. "This wagon load of explosive was purposely set off directly in front of the Morgan offices."

None of the members of the firm of J. P. Morgan and Company were killed.

All of downtown but especially the financial district was rocked by the terrific explosion. A great shower of debris and smoke arose from the Morgan offices. Pedestrians in the street, near the corner of Wall and Broad, were hurled from their feet. A number of them were seriously injured.

Wild rumors of an attempt upon the life of J. P. Morgan caused intense interest.

All available police reserves were rushed to the scene. The windows of the Morgan firm and those of office buildings in the vicinity were smashed and the streets filled with broken glass.

At 12:15 o'clock the board of governors of the New York Stock Exchange ordered the exchange closed.

The explosion occurred during the noon lunch hour when Wall and Broad streets were dense with hurrying clerks and stenographers. All were thrown into panic.

A number of automobiles were parked in front of J. P. Morgan and Co., and all were wrecked. After the blast the police commandeered all available private motor cars to transport the injured to hospitals. Hurray calls were sent into all the nearby hospitals for ambulances.

Many persons were cut by falling glass and debris, but were able to go home to have their hurts dressed. Scores of detectives were rushed into the financial district. A cordon of detectives and policemen was thrown about the corner.

Julius Morgan, son of J. P. Morgan had his hand cut by flying glass.

**LEARN OF BOMB.**

At 12:20 o'clock the police had learned that a bomb exploded on the Wall street side of the building. They said it had either been tossed from a motor car or had been thrown through a window from the street.

The blasted building was roped off and no one was allowed to enter. This accounted for the delay in learning the exact cause of the explosion. Wild and sensational rumors as to the fatalities were circulated. At 12:25 o'clock it was said that the death list might go to sixty. At that time only 15 were actually known to be dead.

Many of the Morgan employees were severely cut by flying glass. The tremendous force of the explosion was shown by the fact that a piece of iron was hurled into the offices of 18th floor of 61 Broadway, four long blocks away.

At 12:20 the police declared that it was impossible to estimate accurately the number of dead and injured.

**CURB MARKET CLOSES.**

Following the action of the New York Stock Exchange the Curb market closed down also.

The United States sub-treasury is across the street from the Morgan bank. It appears not to have been touched.

Hundreds of Curb brokers operating in Broad street, within half a block of the scene of the explosion fled.

A steady stream of automobiles and ambulances drove through lines of frenzied people carrying the injured to hospitals.

One rumor that was current was that a bomb had been tossed into the Morgan office from an adjoining office building instead of from an automobile.

At 12:35 it was reported at police headquarters that at least 75 persons were injured, not counting those who suffered from minor hurts from flying glass.

The injured were taken to the Broad street hospital, in private conveyances. There were so many that they were laid on the floor.

## G. C. P. CAMPAIGN SONG

Second Lieutenant George B. Fairhead, of 1657 Sunset Avenue, Utica, N. Y., and a former member of the old 117th N. Y. Volunteers, has written verses to the tune "My Maryland" to be used as a Republican Campaign Song. Mr. Fairhead says that he read of Cox offering a prize for a Democratic song, so he wrote one for the Republicans.

"I voted for Fremont," said Mr. Fairhead, "and I will vote for Harding and Coolidge, and elect them."

The song follows:

**THE FLAG AT THE FORE**  
(Tune My Maryland)  
O! hail the Flag of Freedom's train,  
Heroes, and men of brain,  
That flag which would not rend in twain,  
In sixty-one's wild, awful strain,  
Put, purified by patriots' blood,  
Survived that raging war's red flood,  
Now, Blue and Gray, for the Union,  
bud  
In Khaki grit and Navy tug.

That Flag disdained the coward plea,  
"Out of war, he kept us," free;  
And, far afield, beyond the sea,  
Forced th' world's fight for Liberty  
For as the Kaiser made his boast,  
That all th' world's brave, martial  
host,  
Must bow to his imperial ghost,  
That Flag said Nay! as Verdun burst.

That Flag, again, moves to the fore,  
Heroes and Khaki Corps,  
Harding and Coolidge lead the score,  
Chipping ego's attempted soar,  
To catch the step and elbow touch,  
Of Freemen voters, Union clutch,  
And leave the Coxites in the lurch,  
With Uncle Sam at Home, for  
lunch.

Tis then we'll lift Old Glory high;  
Clean World integrity descry;  
While old and young will raise the cry  
"Away with th' autocratic fry."  
Tis then we'll live as God's free folks  
Americans who bear no yokes;  
The hero clan which out wears all  
jokes,  
That ego, I AM IT provokes.

## GETS CALL TO DON HIS FOOTBALL TOGS

John W. Guilday, of this city, student in the engineering school at the University of Cincinnati, has been called for football practice with the varsity for October 4. Practice will be started before that by Coach Chambers for students living in Cincinnati, and students not abiding by the cooperative plan at the school. Mr. Guilday, who was a high school football and basketball star, had a berth on the Cincinnati basketball team two years ago and will be out this year to make the football squad.

## Healthful Blood Pressure

(Monday Health Talk No. 2)  
(By G. C. Donohoo, D. C.)

Whatever interferes with the easy passage of the blood through the veins and arteries of the body will induce what is known as high blood pressure. High blood pressure is sometimes present under thirty, but is usually found in those beyond forty.

When there is high blood pressure there is usually evident some hardening of the arteries, that is the arteries become like tubes, instead of elastic aids in the propulsion of the blood through the body. The blood that is properly filtered by healthful kidney action, carries no hardening deposit to stiffen artery walls. Spinal adjusting that restores healthful action of the kidneys is invariably effective in reducing blood pressure and restoring the normal resilience of artery walls.

Call and have an X-ray plate (Spinograph) made to see for your self the cause of your poor health.

## TESTS SHOW PRESSURE REDUCED

"My wife had been in failing health for four years in spite of excellent medical care. We thought the end was near and in our distress tried chiropractic. Her day by day improvement became evident to my entire congregation. Careful tests showed a wonderful change in her heart, kidneys and blood pressure. If at any time you feel my experience may be the means of bringing light to a benighted soul, do not hesitate to quote me."—Rev. A. J. Steelman, Statement No. 1229R, Chiropractic Research Bureau.

Following the regular Wednesday evening prayer meetings in the various churches, all the members of the ministerial association and their wives gathered at the Custis home, where they extended a farewell to the departing Minister and his family. Rev. Uhl, of the First Lutheran Church, gave the opening prayer and Rev. Albert Read, of the First Baptist church, spoke to Rev. Bennett giving a farewell message from the Ministerial Association, to which Rev. Bennett responded. Rev. Charles Proudfoot, pastor of the Second United Presbyterian Church, concluded with prayer.

There were refreshments of ice cream and cake served and the entire Ministerial Association was present at the affair.

**GAUS HALL MARRIAGE IN CINCINNATI.**

Xenia friends will be interested in news of the marriage of Gaus P. Hall, son of Mr. and Mrs. Warren Hall, of Dayton, and Miss Helen Klaver, of Cincinnati, which was quietly solemnized in Cincinnati Wednesday afternoon. The wedding was planned as a surprise to friends of the young people.

Following the ceremony Mr. and Mrs. Hall boarded a train for Dayton and were guests at dinner at 6 o'clock of Mr. Hall's parents at their home on Rockwood Avenue. Mr. and Mrs. D. B. Watt, of this city, uncle and aunt of the bride groom were the only guests outside the immediate family.

Mr. Hall is a graduate of Steele High School, Dayton. During the war he was stationed at the University of Cincinnati as electrical instructor with the Student's Army Training Corps, and later was transferred to Dayton as inspector of electrical parts of airplanes. He is now located in Detroit as representative of a large manufacturing concern of Buffalo. His bride is a daughter of Mr. and Mrs. Theodore Klaver, of Evanston Avenue—Cincinnati.

After a lake trip Mr. and Mrs. Hall will return to Dayton for a visit before going to Detroit to make their home. Mr. Hall is well known in Xenia through numerous visits here.

**LADS ON PROBATION HALED INTO COURT**

Ralph Coates, 10, and Joseph Dudley, 13, both now on probation, were haled before Probate Judge J. Carl Marshall again Thursday.

The boys were implicated several weeks ago in the robbery of some merchandise from a box car on the Pennsylvania railroad and were placed on probation. Several days ago they ran away from their homes and went to Dayton. There it is said they stole \$10 and returned to this city. When Joseph Dudley, Sr., learned his son was home and started to chastise him, the lad and his companion ran away.

Later Wednesday Mrs. Omer Blair, Walnut street, reported that the boys had taken refuge in her garage during the rain and had smoked cigarettes setting fire to her automobile. The machine was only slightly damaged. Later it was learned the boys entered the home of William Dudley, Cincinnati Avenue, where they prepared themselves a meal and ransacked the house during the absence of the family. They were taken into custody by Pennsylvania Railroad Detective Latimer in the Railroad yards between 12 and 1 o'clock Thursday morning and turned over to Probate Court.

WARREN G. HARDING.

Warren G. Harding, United States Senator from Ohio, was born on his grandfather's farm, where his father then resided, just outside the village of Blooming Grove, Morrow County, Ohio, November 2d, 1865. He was the eldest of eight children. He is the son of George T. Harding, then the young village doctor.

The Hardings are of good old Colonial stock, coming originally from Scotland, settling first in Connecticut, removing later to the Wyoming Valley, Pennsylvania, where some of them were massacred and others fought in the Revolutionary War. The mother of Warren, Phoebe Dickinson, was descended from an old-time Holland Dutch family, the Van Kirks; so that in Warren G. Harding is found the blending of the blood of the hardy Holland Dutch and the fearless, alert and liberty-loving Scotch.

The country roundabout was mostly woodland when Warren was born. His grandfather owned a small tract of land and was neither better nor worse off than his neighbors. As Warren grew up, he learned to fell the trees, chop wood, split rails, plant and hoe corn, and do all things incident to farm life.

He attended the village school until fourteen years of age, when he entered the Ohio Central College of Iberia, from which he was graduated, standing high in scholarship. At the age of seventeen we find him teaching a district school, and "tooting a horn" in the "brass band" of the village.

At odd times he worked in the little printing office in the village. He seemed to love the odor of printer's ink and to have a passion for everything pertaining to a newspaper office. The "luck piece" he carries as a Senator of the United States is the old printer's rule he used when he was yet "sticking type."

When he was nineteen, having completed his college course, his father, Dr. Harding, seeking a wider field, removed to Marion, Ohio, the county seat of an adjoining county, where he still resides, and despite his seventy-six years, is in active practice of his profession.

"The Star" was a struggling daily paper, diminutive in size, in a struggling county-seat town of four thousand inhabitants. Young Harding yearned to possess it. Though it had had such a precarious existence that it was difficult to tell whether it was an asset or a liability, his father, having faith in the boy and wishing to gratify this supreme desire of his young ambition, lent his credit in assisting him in taking it over.

With the enthusiasm of youth, and the inspiration of one who has his foot upon the first rung of the ladder of his ambition, the young man bent his energies to the task of making "The Star" a beacon light which should shine out of the darkness, and to lift it out of the depths of all but bankruptcy and give it a financial standing above reproach. He lived with it by day, and oft-times far into the night. He dreamed of it. At times he performed every function from "devil" to managing editor.

"The Star" today is a prosperous, money-making plant. It could not be purchased at any price. It has the widest circulation of any newspaper in a city of thirty thousand inhabitants in the Middle West. There has never been a strike or threatened strike in "The Star" office. His employees found him always liberal and ever generous, and they love him as a brother.

He is at present a director of a bank, director of several large manufacturing plants, and is also a trustee of the Trinity Baptist Church, of which he is a member, and upon whose services he is a regular attendant when in the city.

During the last score of years Senator Harding has been three times abroad, visiting most of the European countries, not on pleasure bent, but to study at close range their systems of government and the economic problems with which we have to deal—such as the tariff, the standard of wage paid to labor in the different countries, and the varied conditions surrounding their mode of life; but always he has returned with a deeper love for his own land and a firmer conviction that its form of government is the best which was ever devised by the brain of man. After his election to the United States Senate, and before taking his seat, he visited the Hawaiian Islands to get some first-hand information upon the production and distribution of sugar.

Mr. Harding has twice represented the Thirteenth Senatorial District of Ohio in the State Legislature, served one term as lieutenant governor, refusing to stand for re-election; and he is now nearing the close of his first term as United States Senator from Ohio. When he came into this wider sphere of action his

## ON THE BRINK

experience in the State Legislature served a good purpose, and he speedily arose to a commanding place.

He sponsored the bill for preparedness which had the endorsement of Colonel Roosevelt, and he was so closely associated with him during its pendency that it came to be widely rumored through the press that Colonel Roosevelt regarded him the coming man of 1920. This close contact gave each a high regard for the sincerity and singleness of purpose of the other. The recent utterances of Senator Harding on the peace treaty, and other questions which are now pressing for solution, prove him to be a man of poise.

Two years after the unfortunate schism which resulted in turning Ohio into the Democratic column in 1912, Senator Harding was elected to the United States Senate by a majority of more than one hundred thousand, running seventy-three thousand ahead of the next highest on the ticket. In his case there was a complete cementing of the opposing factions.

As a public speaker he is calm yet forceful. His voice is mellow, yet has wonderful carrying power. He has a commanding presence, and an almost inexhaustible vocabulary, but his utterances are never verbose. His appeals are always to the head and to the heart; never to passion or prejudice.

In his masterly presentation of the name of President Taft for renomination at Chicago to the most turbulent convention in the annals of Republicanism, overcoming massed opposition and irritating interruption with good humor and the persuasive power of his eloquence, and in his keynote address at the last national convention, he acquired a nation-wide reputation as an orator and as a safe and sane thinker.

In many respects Mr. Harding resembles that other favorite son of Ohio—William McKinley. Both were of Scottish descent. In presence, in manner of speech, in ability to judge of men, in careful, painstaking mastery of detail and tact in bringing together opposing factions on some common ground, there is a remarkable similarity.

His father was a soldier in the Civil War, and the Senator grew up amidst the afterglow of that flaming patriotism which preserved the Union and broke the chains of slavery. His youth was spent around a fireside aflame with the love of liberty and the love of country.

In the year 1891 Mr. Harding was married to Florence Kling, daughter of Amos Kling, now deceased, who was one of the leading business men of the city of Marion. Mrs. Harding inherited the business acumen of her father, and has been a tower of strength to her husband in all of his business relations and political aspirations.

## SALE OF SEMINARY STILL HANGS FIRE; OFFERS RECEIVED

The proposal of Wilberforce University to buy the real estate and buildings of the Xenia Theological Seminary, abandoned on removal of the institution to St. Louis, is still hanging fire. According to a member of the board of trustees of the seminary, no definite action has been taken. The board also received another proposition for the purchase of the property but the name of the prospective buyer was not given out.

The board of education, which is experiencing great difficulty in housing an overflow of pupils created by the condemnation of the third floor of Central building considered buying the buildings several weeks ago, and at that time met with the seminary board and discussed the matter of purchase, but later abandoned the idea.

J. W. Santmyer, president of the board of education expressed himself Thursday as opposed to the purchase of the seminary buildings for school purposes. "When the school board found itself facing a serious housing problem in the spring," he said, "the board offered to rent the buildings with the privilege of purchasing them in a few years when it might find itself financially able to do so."

"The seminary board refused to consider the rental proposition, and also an offer to buy the site and buildings for \$17,500, all that the board feels that it could possibly pay. The Seminary asked \$35,000. The matter was dropped at that time and other arrangements made."

"The new building, while well made and in good condition, does not come up to the strict laws for school buildings, lighting and other features do not conform with the law. The old building could not be used at all."

Mr. Santmyer says he feels that the board should not plunge the city into a debt of this kind and that any available money should be held in reserve for the new building which will be constructed on the Roberts estate as soon as the board sees fit to go ahead with the plans.

Many people in the city believe that the purchase of the seminary for use as a public school would be a splendid buy, and would solve satisfactorily the problem of housing now facing the board.

"The board of education is now paying rent for the Parish House of Christ church, which is housing some of the younger children. Between \$3,000 and \$4,000 was paid for a portable building and its equipment, and still there is an overflow of pupils at McKinley building and the problem remains unsolved," said one member of the board.

Jacob Kany of the Board of Education expressed himself as in favor of the plan but other members of the board hesitate because of the financial end of the matter.

## REPUBLICAN CLUB TO HOLD MEETING

Delegations from Jamestown, Cedarville, Yellow Springs and other parts of the county are expected to attend the Republican meeting to be held at the opera house next Wednesday evening, at eight o'clock, under the auspices of the Thomas H. Jackson colored Republican club.

Dr. J. W. E. Bowen of Georgia, executive of the Garton Theological seminary and Miss Callie Q. Brown, Wilberforce will be the speakers. Dr. Bowen was secured for this meeting by the county Republican executive committee through the national Republican committee and he is rated as an excellent orator.

Miss Brown's services have been placed at the disposal of the National Republican committee. Members of the staff of the Ohio Republican state headquarters have signified their intention of being present at the meeting and a special invitation is being extended the newly enfranchised women voters to attend.

Dr. Jackson for whom the club was named, will preside at the meeting and music will be furnished by the Glee band and the East End Glee club.

## CHOSEN DELEGATES TO ASSEMBLY OF PRESBYTERIANS

## DEMPSEY.

Jack Dempsey will battle 'em all, the short and the fat and the tall; he'll meet any chap who's intent on a scrap, and plaster him over the wall. Oh, long have we yearned for a champ who'd fight at the wink of a lamp and it's been along day, I am prompted to say, since we had a good boy of that stamp! But Dempsey, he rather would fight, than go to a lecture at night; he has no excuse when he's asked to produce "invincible left" or the right. I hope in some bright coming year the prize ring will quite disappear; outworn and outlived it will rest 'neath the sod, and no one will hand it a tear. But while it's a human device I think that the pug should cut ice, and put up a mill with a hearty good will when anyone offers the price. So Dempsey's a solace to me; I watch all his motions with glee; a fighter who'll fight is a joy to the sight, whatever his conditions may be!

## REPUBLICAN CLUB FORMED AT MEETING IN JAMESTOWN

With 250 Republican men and women present at the Jamestown Opera House Wednesday night an enthusiastic Harding and Coolidge Club was formed.

Officers of the new club were elected as follows: chairman, Frank C. Gordon; vice chairman, Mrs. Ed. Allen; secretary, Alfred Ogan and treasurer, Mrs. Braden Smith.

Unfortunately through an error at campaign headquarters, Columbus, the woman organizer who was to have been present was not there. Rev. Smith of Bowersville delivered an interesting address however in which he dealt with many personalities concerning Senator Harding's early life.

Rev. Smith's father and Senator Harding's father, Dr. Harding, were neighbors at Marion, Ohio, and it was through this relation that Rev. Smith was able to give an interesting account of the early life of the Republican presidential nominee.

L. T. Marshall of this city, chairman of the county Republican executive committee and a number of other local Republicans, both men and women, attended the organization of the new club in Jamestown. Similar organizations will be effected soon in outlying precincts.

## NEW PRESIDENT OF WILBERFORCE GIVES FACULTY ADDRESS

The president's address to the faculty of Wilberforce was delivered by John A. Gregg, newly elected president of that university at the first faculty meeting of the year held Wednesday. At this meeting all of the standing committees for the year were appointed. There are eighteen of these bodies composed of faculty members, who will have charge of the various branches of education, including the administration, development, lectures, and other features of the work.

Mr. Gregg said today that teachers have been acquired for all departments, and that there will be no difficulty in carrying on the work at once. Some of the instructors have not yet arrived but will be here the last of the week to start their work.

## FESS WILL SPEAK AT ZION BAPTIST CHURCH SATURDAY

The Harding and Davis club announced Thursday that Congressman S. D. Fess, who is scheduled to appear in Xenia, Saturday, will deliver his address in Zion Baptist church on East Main street, instead of the assembly room of the court house. Dr. Fess will speak at 7:30 Saturday evening, under the auspices of the Harding and Davis Republican club.

The best part of a horse is horse-sense

Applied to men's clothing it amounts to simply this; that if you buy a cheap suit under \$40, you will be skating on thin ice before winter sets in and you know that's not a profitable pastime for any Xenia man.

We are doing our mightiest this month to keep you away from spending a small amount of money for a smaller amount of satisfaction.

And if you'll regard our talks in the light of advice and not as an advertisement we'll appreciate it very much.

That's why they are printed—to keep you away from poor clothes—and nearer to ours.

# TWO ARE SERIOUSLY HURT AS ELEVATOR DROPS AT SCHOOL

Two men were seriously injured and four bruised when an elevator used in the construction of the New Carlisle school building dropped 26 feet when the cable broke.

Garland Harry, Home avenue, Dayton, suffered three broken ribs, a dislocated ankle and is in Miami Valley hospital, suffering from internal injuries. Russell Harry, same address, sustained a broken arm and bruises on the head, also at Miami Valley hospital, H. C. Clemons, Cincinnati; Walter Dimmery, Toledo; Peter Braumiller, New Carlisle and Thomas Oliver, colored of Springfield all received minor injuries.

# WILL RETURN MAN TO DAYTON; ALLEGED A BANK ROBBER

Sheriff William Oldt, of Montgomery county, planned to leave for Toledo Thursday afternoon to serve a warrant against "Cowboy" Hill believed to be one of the robbers who held up the West Carrollton bank, April 10.

Hill is recovering from wounds received in a battle with Toledo police, Friday when he was shot and captured. At the same time, a man giving his name as Joe Forrest was also arrested and is being held on suspicion of connection with the bank robbery.

Sheriff Oldt will attempt identification of both men through photographs and Bertillon measurements and will return both to Dayton.

# PROMINENT DAYTON PHYSICIAN DIES

Dr. J. C. Reeve, 94, prominent retired physician of Dayton, and a charter member and former vice president of the American Gynecological society, died at 10:30 o'clock Wednesday night at his home, Third and Wilkinson streets, Dayton.

Dr. Reeve had been confined to his bed since September 5. He practiced medicine and surgery in Dayton 42 years and retired from active practice when he was 70 years of age. He was at one time president of the Ohio Medical association and was elected president emeritus at the last annual convention of that organization. Four children, Mrs. Charlotte Reeve Conover of Dayton, Sidney A. Reeve, of New York, J. C. Reeve, Jr., and Mrs. Robert E. Dexter of Pacific Grove, Monterey Bay.

# COLONEL HOUSE IN U. S.

New York, Sept. 15.—Wrapped in his usual sphinx like silence toward reporters, Col. E. M. House arrived on the liner Olympic today after an extended sojourn in Europe, mainly Paris, where he studied the international situation. Col. House said he will go directly to Boston to visit his daughter.

# PROTECT YOUR CHILD—AND OTHERS.

At the first sign of a cold it is well to give a child a dose of Foley's Honey and Tar Compound, that safe, reliable cough medicine. Mrs. J. B. Pluijmers, 246 Autumn St., Passaic, N. J., writes: "Foley's Honey and Tar certainly is the best cough and cold remedy I ever tried for my little boy." Children like it. Good for coughs, colds, croup, whooping cough, hay fever and asthma. Sayre & Hemphill.

# BEAUTY CHATS

PARTICULARLY FOR HOUSE WIVES

The woman who does her own housework really has unlimited opportunities to give herself beauty treatments; if she will only take advantage of them. For no matter how much work she has to accomplish during the course of the day she has one immense advantage—she has her own time to accomplish it; she is her own boss and she can work just as she pleases, without any critical boss and she can work just as she pleases without any critical employer standing over her.

Consequently, if she wants to stop her work every 10 or 15 minutes to straighten up and take deep breath-

ing exercises there is no one to prevent her. Her only master is Time. And it is always possible to work a little faster if a certain amount must be accomplished by a certain hour; and if she keeps herself feeling perfectly healthy she can, of course, work, faster and more intelligently.

The housewife can, if she wishes, roll her hair up on soft curlers, cover the rather unsightly mess with a cap and go serenely about her work while her hair is made soft and wavy for some evening festivities. She can, if she wishes, cut her hair in the middle and shampoo her hair sitting out in the sun to dry it, while she does some necessary mending, thus giving herself a beauty

treatment and losing no time while doing it.

She can rub her hands full of cold cream cover them with gloves and go on about her housework while her skin is taking up the beautifying oils. She can ever rub her face and neck full of cream and do her work. Meanwhile her complexion is absorbing the cream and being nourished and kept young by it.

Loretta.—The cream you mention is not suited to your skin which accounts for the dryness and scaling. You should use a good nourishing cream until you overcome this trouble. The moles are not serious as they are only on the outside layer of the skin. they can be bleached off

with peroxide of hydrogen or can be treated with the electric needle so they will disappear more quickly. The "Beauty Chat" of August 2nd, gave a full description of a style of hair dressing coming into vogue, which is just what you need.

F. M. C.—You might try some of the dyes for your switch and follow the directions as you would for dyeing fabrics. Dyes have been so uncertain in the last few years the chances for a good shade are very poor. You had better be sparing with the amount of dye, as overdoing it would rot the hair. A new switch should not cost very much.

**WOMEN TO BE DRAWN ON JURY**

Cincinnati, Sept. 16.—Prosecutor Capelle submitted an opinion today to the Hamilton county jury commissioners, holding that the 19th amendment conferring equal suffrage upon women is now in legal effect and that the names of women may hereafter be put in the wheel, to be drawn for jury service at the fall term of court.

# WOMEN'S VOTE BILLS IN.

Charleston, W. Va., Sept. 16.—Nine bills relating to the registration of women for the November election were introduced in both houses of the West Virginia legislature.

**HOW ONE WOMAN WAS HELPED**

Althea Walker, New River, Pa., writes: "I have been troubled with weak kidneys for two years. I took Foley Kidney Pills and they helped me fine. I rest fine all night and now have no trouble with my kidneys." When the kidneys do not properly do their work, acids and poisons left in the system cause weak and lame back, dizziness, puffiness under eyes, swollen ankles, joints, aches, pains, soreness and rheumatic pains. Foley Kidney Pills have given relief to thousands of men and women. Sayre & Hemphill.

## **PORTRAIT WHITELAW REID PRESENTED TO MIAMI UNIVERSITY**

In remembrance of the late Whitelaw Reid, celebrated Cedarville citizen and United States Ambassador to the Court of St. James, a handsome portrait in oil of Mr. Reid, presented to his alma mater, Miami University, by Mrs. Reid, was unveiled Wednesday morning at the formal opening of the one hundred and twelfth year of the university.

The portrait is the work of a noted Scottish painter, Sir George Reid, and it was presented in the name of Mrs. Whitelaw Reid, by Rev. William J. McSurely, D. D., a close personal friend of the late ambassador and a classmate of his among the graduates of Miami in 1856. Judge William S. Giffin, of Hamilton, a graduate of Miami, in the class of 1871 and for 20 years a trustee of the institution, received the portrait on behalf of the university.

Whitelaw Reid entered Miami university from Cedarville, his birthplace in the fall of 1842 the year that marked the graduation from Miami of President Benjamin Harrison, with whom Mr. Reid was associated on the national Republican ticket in 1852. Among his friends in college were General Gates P. Thurston, of Tennessee; General Joseph Fullerton, of Ohio; Dr. John Shaw Billings, later librarian of the New York public library; Chancellor Henry M. McCracken, of New York University and General Ben Platt Runkle, of Ohio. While in college, Mr. Reid was a leading member of the Delta Kappa Epsilon fraternity and held the Miami chapter intact when a group headed by Runkle, withdrew and established Sigma Chi.

Throughout his life, Mr. Reid remained deeply attached to Miami university and he delivered the principal address at the diamond university celebration in 1899. Later he made liberal contributions toward the erection of the Alumni Library and the Delta Kappa Epsilon chapter house.

## **SHANNONS OPEN THURSDAY NIGHT**

The Shannon Stock Company, well-known and popular with Xenia audiences, arrived in Xenia Thursday for the opening engagement of its three night run at the Opera House.

Thursday night, the company opens with "Jim's Girl" an offering from the pen of Earl Carroll, author of "So Long Letty" and a number of songs hit and was originally produced by Cohen and Harris. The play is rated as one of the greatest comedies ever presented by the Shannons.

In the piece Harry Shannon, Jr., that inimitable comedian is seen at his best and his charming sister, Miss Hazel Shannon has a part. The cast is strong this season and the Shannons are bound to give an able presentation of the piece.

## **BEATS GASOLINE AT 15 CENTS A GALLON**

New Invention Makes Ford's Run 24 Miles on Gallon of Gasoline and Start Easy in Coldest Weather. Other Cars Show Proportionate Savings.

A new carburetor which cuts down gasoline consumption of any motor including the Ford, and reduces gasoline bills from one-third to one-half is the proud achievement of the Air-Friction Carburetor Co., 1091 Madison St., Dayton, Ohio. This remarkable invention not only increases the power of all motors from 30 per cent to 50 per cent, but enables everyone to run slow on high gear. It also makes it easy to start a Ford or any other car in the coldest weather without previously warming the motor. With it you can use the very cheapest grade of gasoline or half gasoline and half kerosene and still get more power and more mileage than you now get from the highest test gasoline. Many Ford owners say they now get as high as 45 to 50 miles to a gallon of gasoline. So sure are the manufacturers of the immense saving their new carburetor will make that they offer to send it on 30 days trial to every car owner. As it can be put on or taken off in a few minutes by anyone, all readers who want to try it should send their name, address and make of car to the manufacturers at once. They also want local agents to whom they offer exceptionally large profits. Write them today.

# WEDNESDAY MIDNIGHT SOUNDS DEATH NOTE FOR STRAW HATS

Midnight Wednesday spelled the end of the straw hat.

Like summer roses, baseball, palm beach suits and palm-leaf fans, the hat went into the discard with the stroke of the twelve.

Clothes say Labor Day is the official funeral day for the grass dome covering, but there is so much leniency exerted in this line that the wearers themselves have stretched the end of the official period until September 15.

Thursday, the lad wearing a hay headpiece could anticipate any sort of disaster to his crowning glory before the day is done. The hangers-on will run the gauntlet of jibes and blows. There are still many regretting the lid that gave them joy during the hot summer months, but midnight Wednesday marked the end and the piece must give way to felt or cloth.

## Is It Yours

THIS IS THE BIRTHDAY OF  
SAMUEL ADAMS

September 16th (?) 1722

Samuel Adams called the "Father of the American Revolution" was described as a "staid, prematurely intelligent boy." He was born in Boston in 1722 and went to Harvard when he was very young. He was fond of quoting Latin and Greek and he studied very hard. He seemed to take little interest in politics, yet his graduation essay on the right of colonies to resist the mother country was a prophecy of our revolution and of his part in it.

He married and settled down to run his father's malt-brewing house. This business gradually died out and Adams was obliged to add to his income by writing for the papers. In 1764 he drew up the first paper denying the right of the Stamp Act. From then to his death, he gave every minute of his time to the service of his country. He made no money; he was always poor and depended often for his very food on the contributions of friends of the American cause.

An Englishman said of him, "Every dip of his pen stings like a horned snake." It was Adams who got up the Committees of Correspondence which drew the scattered colonies together, and it was his voice which inspired the Boston Tea Party.

## SWEEPING VICTORY BY NON-PARTISANS

Denver, Colo., Sept. 15.—A sweeping victory for candidates endorsed by the non-partisan league running on petitions in the Democratic primaries was indicated early today by incomplete returns from Tuesday's state-wide primary election.

James M. Collins, farmer-labor gubernatorial candidate, was chosen to lead the Democratic ticket for governor while non-partisan league candidates for other state and legislative offices were practically sure of victory. Supreme court Justice Tulley Scott is the only bona fide Democrat who has a chance for vic-

tory according to early tabulations. He is leading the race for United States Senatorial candidate. Governor Oliver Shoupe was renominated by Republicans without opposition to again head the state ticket. The three cornered fight in the Republican ranks for choice as U. S. Senator is apparently won by Karl C. Schryer who had wide margin over his two opponents in Denver and was running strong throughout the state. The vote was the heaviest ever cast in a primary election in this state.

## "ALWAYS YOU" WILL APPEAR AT VICTORY

In impressive and picturesque settings, enhanced with costumes of var-

iegated hue and bizarre effect and possessed of unique electrical and mechanical devices. "Always You" which is coming to the Victory Theater, Dayton, for four days starting Sunday night, September 19th, with Irene Franklin and Ralph Herz and a big beauty chorus, is a revelation of latter day stage-craft. Striking the eye with all the rich and colorful splendor of the Orient, "Always You" further commends itself as the most ambitious and elaborate production from the workshop of Arthur Hammerstein.

Miss Marjoria Flynn left Tuesday for Danville, Ky., where she is head of the English department at the Kentucky College for women.

## RHEUMATISM LEAVES YOU FOREVER

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer that of two bottles of Allenru, the sure conqueror of rheumatism, does not stop all agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment. Allenru has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless. Mr. James H. Allen, the discoverer of Allenru, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenru decisively conquers this worst of all diseases and he has instructed Sayre & Hemphill to guarantee it in every instance.

## FALL TERM IN COLLEGES DRAWS OVER FIFTY XENIA STUDENTS TO CLASS ROOMS

With the exodus of 54 students to respective schools this week, Xenia is taking on the aspect of the subject of Goldsmith's immortal poem.

Many young people have either left this week or are planning on leaving within a few days to take up their school work in various schools of learning in Ohio and other states.

The majority of these students will attend Ohio schools this year. To Dennison University, Granville, Miss Mary Julia Whittington, and Heber Tullis, Raymond Snodgrass and Marshall Best have returned, while Misses Margaret Prugh and Miriam and Margaret Galloway will be new students at the school.

At Miami University, Misses Josephine Armstrong, Grace Kiernan and Eleanor McDaniels are returning while Ance Stephens and Misses Katherine Hollencamp, Thelma Powell and Edith Fudge are matriculating there this fall. At Western College at Oxford, Misses Elizabeth Galloway and Anita Moser are entering this fall. Miss Loretta Richards will be a student at St. Joseph's College at Cincinnati this fall. Students at Ohio Wesleyan this year will be Miss Katherine Long of Jamestown and Miss Dorothy Faulkner of near Xenia who are returning for their second year's work and Miss Olive Huston and Paul Satterfield, who are just entering the school. At Muskingum the Xenia coterie of students will consist of Misses Janet Ballentyne and Celia Moore and John Ballentyne, Robert Moore, Earl Short, Philip Kyle and Warren Ferguson.

Richard Sayre will matriculate at the University of Dayton this fall, this being the new title of St. Mary's Institute, Dayton, which has now taken on the scope of a university. Lawrence Prugh will not return to Denison this year but will take up his work at Western Reserve Cleveland. At the University of Pennsylvania, Philadelphia, Richard Gowdy and Walter Jobe will resume their work this fall. Henry Flynn will be a new student at this school.

At the University of Cincinnati, John W. Guilday will return soon to take up his work and Lawrence Currie has already matriculated there as a new student in mechanical engineering. The increment of local students at Ohio State this fall will consist of Marion Byler, Isadore Hyman, Lawrence Riddell, Maurice Fulkerson of Spring Valley, Herman Higgins, Robert Ralls and David Purdom.

Miss Doris Flynn is returning to Oberlin College where she resumes her school work while Miss Helen Dymond will return soon to take up her work at Wilmington College. In the Antioch contingent this year will be John Purdom, Paul Whit, Frank Chambliss, Gail Vannorsdall and Miss Pauline McFadden. Alfred Casad is returning to Heidelberg for his second year while Gene Benbow will go to Atlanta, Ga., where he matriculated at Georgia School of Technology.

Misses Ethel Swan, Imogene Muller and Elizabeth Dice are entering Miami-Jacobs Business College this fall for a commercial course. Harry Connell, will leave soon for Kansas City where he will take up a special course in the school of osteopathy with the goal of becoming doctor of this branch of science.

### POSTMEN SEEK ALLOWANCE

Indianapolis, Sept. 15.—Rural letter carriers purpose to start a campaign among congressmen and U. S. senators for the enactment of legislation granting them an allowance for maintenance of equipment. The first annual convention of the National Federation of Rural Letter Carriers was convened here yesterday. The amount to be asked will be \$600 annually, it was said.

### SEIZED EXCHANGE.

London, Sept. 15.—Five hundred persons led by a leader who proclaimed himself a bolshevik, seized the Harlesden labor exchange today but were ejected by policemen when they attempted to hold a meeting. The demonstrations then formed in line and led by a woman, marched to their own headquarters. Harlesden is an eastern suburb of London.

### PHYSICIAN INNOCENT, SAYS NURSE EMPLOYED AT "MYSTERY CASTLE"

Police scaling "Mystery castle" wall when making the raid, and Miss Cleo Tevis.

Suspicious of the police of Salada Beach, Cal., were recently aroused and they raided the home of Dr. Hickok, known as "Mystery castle." Failing to gain admittance at the gate, the police scaled the high wall surrounding the house. They dug up human bones and women's clothing in the "castle" grounds. Dr. Hickok was arrested on a charge of malpractice. Miss Cleo Tevis, a nurse employed by Dr. Hickok, asserts that he is innocent.

## Heart and Home Problems

Dear Mrs. Thompson: I am a distant reader of your column, from Bisbee, Arizona. I am here for my health.

I ran across the letter from "American Beauty" in your column and hope she sees this, although it is a bit late.

I wonder if she has any pride at all, having been married herself and now a widow? What would she have felt if some woman would have taken her husband away from her? I think your answer to this, "American Beauty" was too soft, but I hope she will take it to her heart and not try to break up a home. She should just think of herself and her four children being in the other woman's place. How would she like it?

Please tell her to cut the vampire. I am glad that you find the column interesting enough to take part in it. You have my most sincere wishes for a speedy recovery so that you can go back home again and live among the people whose life stories interest you at a distance.

Dear Mrs. Thompson: While I was in my junior year in high school I met a boy who entered the freshman class. He was two years younger than I, but we started going with each other. We were together more than ever in my senior year, as my girl friend went with a boy friend of my boy friend's.

Because he was so young I made many excuses for the way he treated me. At first he would hardly let me out of his sight. This summer he showed me so plainly that I was tired of me that I stopped having anything more to do with him. He had kept breaking his dates with me so I thought I wouldn't stand it any more.

He had a pin of mine which he wasn't going to return, but through my girl friend's fellow he finally

returned it. Lately I have remembered that I gave him a picture of myself. Would you have him return that or should I just drop the matter altogether?

THANK YOU.

I would advise you to drop the matter altogether.

Dear Mrs. Thompson: My face and neck are quite thin, but my body is stout enough. Would you advise electrical massages to fill out my face and neck?

When with a gentleman friend in passing in front of him when he holds open the door, should one say, "Pardon me"? Also, ought one to say, "Thank you"? When there are several doors to be opened it seems sort of useless to say "pardon me" every time. LILA.

Some find electrical massage beneficial. It might be wise for you to give it a trial.

Simply say, "Thank you," when the man you are with holds the door open for you. It is not necessary to ask him to pardon you.

Dear Mrs. Thompson: When receiving an invitation to a wedding out of the city which you cannot attend, is it proper to send a present? If you do not send a present should you write a letter to them when you are acquainted with the bridegroom only?

Also, what is the proper thing to do when receiving a wedding announcement from a distant city when you are acquainted with the bridegroom only? MARTHA.

A wedding invitation calls for a present. Write to the bride-to-be, expressing your regret that you cannot attend the wedding. Also wish her happiness and say that you hope you will have the pleasure of meeting her at some future time.

Write to both together and wish them happiness.

cautionary one, to the end that dance halls might be made safe for the young people of the city.

## FARMERS TO DEVISE NEW CO-OPERATIVE MARKET PRINCIPLE

Washington, Sept. 16.—The American Farm Bureau Federation announced the personnel of the committee of 17 appointed by President J. R. Howard to work out a plan for co-operative marketing of the American grain crop.

Methods of co-operative grain elevator associations in the middle west and of the grain raisers of western Canada will be studied as well as the systems used in similar marketing enterprises by fruit growers and other producers. The federation said, estimating that it would require two years of preparation before a co-operative plan for the grain crop could be put in action.

L. J. Tabor, master of the Ohio Grange, is a member.

"I desire emphatically to deny," said President Howard in announcing the committee, "that any policy or plan involving price-fixing has been devised upon by the American Farm Bureau Federation or any committee appointed by it. We desire merely to evolve a market system which will eliminate useless handling costs unnecessary selling expenses, ruinous price fluctuations due to market juggling and speculations and so to coordinate supply and demand as to insure that on the one hand the producer receives the cost of production plus a reasonable and living profit, and on the other hand the consumer gets an adequate and uninterrupted food supply at the least possible mark up over actual costs."

## Easy Way To Ward Off Cold

It's better to take a few pleasant little tablets and ward off a cold than to pay big doctor bills and lie in bed for days or weeks with pneumonia.

During the fall and winter months when grippe and pneumonia keep the doctors busy, health authorities urge everyone to "Watch out for symptoms of colds and get after them right off."

Take no chances. At the first sign of sniffing and sneezing get a box of Lightning Laxative Quinine Tablets and stop the cold within 24 hours. Lightning Laxative Quinine Tablets are safe, pleasant; never gripe or sicken. Druggists guarantee them. Only 25c per box.

### THE FIRST COURSE

Chicken Soup—Six cups of the stock in which a fowl has been boiled, one-half carrot cut in dice, one sliced onion, two stalks celery cut fine, one-half bay leaf, one-quarter teaspoon peppercorns, one-third cup hot boiled rice, salt.

Add seasoning to stock, heat gradually to boiling point, and boil one-half hour. Strain and add rice. A tablespoon of lean, uncooked ham is sometimes added to the seasoning. When ham is used, omit salt. Use medium flame.

Cream of Celery Soup—One and one-half pints milk, one quart celery cut in pieces, two tablespoons flour, two tablespoons butter, one slice onion, one blade mace, one cup cream.

Boil celery in a quart of water forty-five minutes. Boil mace, onion and milk together. Mash the celery in the water and add it to the boiling milk. Melt butter in a saucepan; add flour slowly until it thickens; add three or four minutes, and cook to boiling soup. This method of thickening soup with flour and butter cooked together is called binding it. Season with salt and pepper. Strain, and serve immediately, adding one cup of whipped cream after soup is in the tureen.

### FOR THE TABLE

Creamed Spinach With Dried Beef—Make a cream sauce of one tablespoon of butter, one tablespoon of flour, one cup of milk, salt and pepper to taste.

Add to cream sauce four tablespoons of cooked spinach and one-quarter of a pound of dried beef cut in small pieces. If dried beef is very salty freshen in hot water.

When serving garnish with slices of hard boiled egg.

This is a very good way to use a small quantity of leftover spinach and the recipe will serve three people. The amount of cream sauce can be doubled if dish is required to go further.

Dressing for Coleslaw—One cup sour cream, one-half teaspoon salt or enough to salt cabbage, three tablespoons of sugar, one-third cup vinegar.

Mix the above dressing thoroughly with finely slawed cabbage. Pepper can be used if liked.

This also makes a fine dressing for lettuce.

## "JUST A GIRL"

BY JANE PRELPS

### A SUCCESSFUL PARTY

#### CHAPTER 118

Mary had not yet come in, so I put the money away, then hurried down to help Mrs. Fagin. To my surprise, she had asked every one of her roomers.

"It's just a cold dinner I am giving because I ain't no help what can dish up and wait. But I guess there'll be enough to eat."

"I should say so," she had baked a ham, had roasted beef, made salad, and in a corner of the kitchen, there stood a big freezer of ice cream.

"We'll have hot coffee, but that's all. Now you fix the table. Miss Zena, there's some sweet peas for the middle."

I had the table nearly laid when Mary came in, Tom following in a few moments. But I had no time to tell them of Mr. Claxton's gift, as we had to hurry to dress.

But when we were all ready, and Mrs. Fagin too had changed to her best black silk, I told them of the \$50, and asked them to make up their minds what I should get with it.

"Why don't you ask him to supper seein' he's given you a present?" Mrs. Fagin asked Mary, so saving me the task. I had been a bit fearful that Mary, or more likely, Tom, might feel they would not care to have him—that it might embarrass them.

"Sure we'll ask him! I'll write him a note like I did Tom's friend. Shall I, Zena?"

"Yes do! I am sure he will be de-

lighted to come." I said nothing of our conversation, or that he had practically asked for an invitation. And we had no time for further assembling in the parlor.

"Walk this way," Mrs. Fagin said in her grandest "black silk" manner, as she led us to the dining room.

The ham and beef had been sliced on enormous platters, so we could all sit down, including the hostess, Tom and Mary were given the seats of honor at the head of the table. Tom was blushing, but Mary look proud and happy.

Mrs. Fagin beamed upon them, the other guests felicitated them in either happy or comical remarks, and we all ate ravenously of the good things Mrs. Fagin had provided. She urged everyone to have all they wanted, declaring there was "plenty more in the kitchen."

We toasted Mary and Tom in glasses of sarsaparilla, and Tom made a little speech thanking Mrs. Fagin and all for their kindness and good wishes. He was awfully embarrassed, but went through with it all right. Then Mary made a little speech.

"You have all been awful good to us, and when we get settled we want you to come and see us. Just let us know when to expect you, else we might not have anything in the house to eat."

They all clapped when Mary had finished. Then the ice cream was served. After that we had coffee, and

the dinner was over.

Mrs. Fagin had us all return to the parlor and play games. Old-fashioned authors and checkers. At 11 o'clock the party broke up. The guests were all hard-working people who needed their rest. But before we dispersed someone proposed a vote of thanks to Mrs. Fagin, who was tearfully affected as usual.

I had enjoyed the evening immensely. It was so different from any affair I ever attended in my life. But there had been such a kindly spirit shown through it all that I wondered when I was alone if people who did things on a much grander scale got any more out of life than people whose pleasure were simple and could be enjoyed but seldom.

Mary and Tom decided to put the money Mr. Claxton had sent them to frimite. They had seen a dining room set they liked, but felt they could not afford. But adding the \$50 they could have it.

"Then some day we'll ask him to Sunday dinner, and let him eat off the table," Mary declared.

Mr. Claxton laughed heartily when I repeated Mary's remark.

"I shall hold her to that!" he said, then added: "Yo said you were to live with them?"

"Yes."

"Then you will also be at that Sunday dinner."

## Thousands of Women

### Owe Their Health To

Lydia E. Pinkham's Vegetable Compound—overshadowing indeed is the success of this great medicine. Compared with it, all other medicines for women's ills seem to be experiments.

Why is it so successful? Simply because of its sterling worth. For over forty years it has had no equal. Women for two generations have depended upon it with confidence.

Thousands of Their Letters are on our files, which prove these statements to be facts, not mere boasting.

Here Are Two Sample Letters:

Mother and Daughter Helped.  
Middleburg, Pa.—"I am glad to state that Lydia E. Pinkham's Vegetable Compound did me much good when I was 35 years old. I was run down with female trouble and was not able to do anything, could not walk for a year and could not work. I had treatment from a physician but did not gain. I read in the papers and books about Lydia E. Pinkham's Vegetable Compound and decided to try it. The first few bottles gave me relief and I kept on using it until I got better and was able to do my work. The Vegetable Compound also regulated my daughter when she was 15 years old. I can recommend Vegetable Compound as the best medicine I have ever used."—Mrs. W. YERGER, R. 3, Box 21, Middleburg, Pa.

## Perspiration stains rot your silk stockings

After every wearing  
toss them into these cleansing suds

HOW often you have been annoyed at the stains that perspiration left on a delicately colored silk stocking! They were so unsightly! Worse than that, they are harmful! The chemical action of perspiration rots the fine silk fibres. Your expensive stockings are actually being eaten up!

But you can save them! After every wearing, dip them in a bowl of foamy Lux suds. Don't let them wait, even over night. The pure Lux suds will freshen them in a minute, cleanse away every trace of perspiration and dust. It means twice the life for your silk stockings!

Get Lux today from your grocer, druggist or department store. Lever Bros. Co., Cambridge, Mass.

There's nothing like Lux for silk stockings

### A FEW HELPS FOR SILK STOCKINGS

Never wring silk stockings. Wringing injures the fibre. Just squeeze the water out gently.

Always use a warm iron, never a hot one. Heat injures silk fibre and yellows white and delicate colors.

Spread clocked stockings on a towel, and roll immediately to dry. Iron while still damp. This will prevent the clocks from running.
